Human Resources and Executive SearchConsulting Services

DIGITAL BUYERS GUIDE

The Buyers Guide has been designed specifically to provide Federal Government purchasing agents, procurement officers, and prime Federal Contractors with reliable product and service suppliers. The Buyers Guide 's Vendor Listings list NAICS codes first, followed by products and/or services offered and all pertinent company information to help you establish bid lists for both short-term and long-term contracts. You can find an easy to use NAICS codes index in front of the guide along with a complete list of suppliers in the product and company index in the back of the purchasing guide.

If you need further assistance using this guide, please call our corporate offices at (805) 963-7470.

What's Inside.....

NAICS Codes

North American Classification Systems, providing codes to group and arrange products, equipment and services.

Product Index

Alphabetical index of products and services available for purchase in this guide. You can search here for specific type of product or service.

Vendor Listings

Here you will find complete vendor information, products and services including phone numbers, address, sales contact, and complete company description and more.

Company Index

Alphabetical index of the companies appearing in this issue. If you know the company name you are searching for, check here for quick access.

Researching Project: How will the International Democratic Allied Force (IDAF) use and adapt the complex war environment in China? China is a special country. All Chinese have their special cultural traditions, thinking ways and social conventions. Many these factors will influence the war process in China. We will try to find and analysis almost factors which will influence the war process and the battles in China. We try to find some way that the whole IDAF will use and adapt these factors to win the war and battles in China. We try to find some way that the soldiers, offic

Researching project: We understand Chinese, the Chinese cultural traditions, the Chinese thinking ways and the social convention in China; we understand the political, social and military environment in China. So they will be easy to find the way that confront and beat the military strategies and stactics of the CCP force.

Researching project: How to use the minimal miltray expenditure,to build and operated a loyal army and marine which were consisted of 300,000-500,000 Chinese. This army and marine will play a important role if the war will be broken between China and U.S.A, and it will play a important role after China will become a democratic county.

Researching Project: IDAF is International Democratic Allied Force. Most democratic countires need protection by U.S.A force, but U.S.A is bearing huge burden. U.S.A should take their money,land and human resources from most democratic countries, to build a biggest force in the world, and then to protect these countires.should be built and operated. If IDAF will be built, U.S.A government will save 30%-50% military expenditure. If U.S.A government won't reduce the military expenditure, the soldiers of army and Marine will reach two to three millions.
